

RACK KING LUMBER RACKS

BENEFITS

- Lifetime Design Eliminates Costs of Building & Repairing Wood Bins
- Vertical Stacking Up To 4 Units High Creates Floor Space
- Modular Material Handling for Lean Manufacturing

Lumber Rack with optional T brace sides

Rack King Lumber Racks are nothing like anything you've tried before. These material handling marvels will save you many unseen costs such as building wooden bins, repairing broken bins, and restacking lumber from broken bins. Utilize vertical storage in your warehouse with these stackable racks. Stack up to 4 units high and save valuable floor space. Rack King Lumber Racks make organizing your lumber storage easy.
